- Learn to develop a structured programme of learning and implementing the risk assessment and mitigation measures in relation to operational processes in health, education, social and relief services as well as support functions of the Agency;

VI. Background to the Assignment:

Since its establishment, the Agency has delivered its services in times of relative calm in the Middle East, and in times of hostilities. It has fed, housed and clothed tens of thousands of fleeing refugees and at the same time educated and given health care to hundreds of thousands of young refugees. UNRWA is unique in terms of its long-standing commitment to one group of refugees and its contributions to the welfare and human development of four generations of Palestine refugees. Originally envisaged as a temporary organization, the Agency has gradually adjusted its programmes to meet the changing needs of the refugees. Today, UNRWA is the main provider of basic services - education, health, relief and social services - to over 4.4 million registered Palestine refugees in the Middle East.

DIOS - History: The Department of Internal Oversight Services (earlier known as the Audit & Inspection Department) is as old as the UNRWA itself, 60 years. It is so interwoven with the rest of the functions that many times, it is difficult to perceive it as an institution. But nevertheless, it is an institution whose history is unbroken by the turbulent times through which its parent UNRWA traversed. It signifies strong tradition of accountability and oversight function within the Agency for years.

The immense contribution made by the Agency in the lives of the Palestine refugees is acknowledged the world over. And, the internal audit too played its part in assuring the world community that its generosity and well meaning support has appropriately been utilized for the greater good of the target communities in the Palestine, Jordan, Syria, and Lebanon areas. People who devoted their lives in trying to make a difference are often forgotten in due course of time.

The Department of Internal Oversight Services is a value added resource for the UNRWA financial, operational, and control activities. It exists to support UNRWA Headquarters and Field Offices in the effective discharge of their responsibilities and accomplishment of the Agency goals. We provide independent, objective evaluations of the Agency operations to improve effectiveness in governance, risk management, and internal control processes in accordance with professional standards.

About DIOS - Mandate: The Department of Internal Oversight Services is governed by the Organizational Directive # 14. This directive was last revised on the 1 October 2002. The OD 14 is a document that effectively gives the DIOS its powers, responsibilities and authority. Essentially, the mandate pertains to audit, inspection and investigation functions in the Agency.

DIOS - Administrative Reports: DIOS presents an administrative report on a biennium basis apart from the regular reports to the Commissioner General and the Advisory Committee on Internal Oversight (ACIO). The Administrative report covers the Internal Oversight Results summarized by Function, findings, recommendations and management actions, summary of the reports issued during the biennium year, UNBOA /third party audits and evaluation reports and organizational information.

Risks identified according to administrative processes such as procurement, finance, HR and budgeting. Programmatic topics such as microfinance, health, education.

Currently DIOS is staffed with 11 Staff members, four international and seven area staff members.

VII. Information about Living Conditions at the Duty Station:
